

Vote Leave, take control

Dear Editor,

We, the undersigned representatives, are urging the good people of the County of Lincolnshire and in the Greater Lincolnshire area to Vote Leave in the European Union Referendum on Thursday 23rd June 2016.

We believe an independent Britain will benefit both our County and our Country as a whole, now, and in the future. We believe in a sovereign democracy and not a federal oligarchy.

By leaving the European Union, Britain will once again be able to address the unprecedented number of economic migrants coming into the County who are placing huge pressure on our schools, housing, welfare and health services. More jobs will be created in our County and Country as we will cut the burden of endless Brussels' bureaucracy on our businesses and so our small businesses through to large employers will be able to trade more freely with the whole world.

Additionally, by leaving the European Union, we will regain control of our laws, our democracy and on those who govern us. We will be a sovereign Country once again. Those who we elect we can remove, something that is impossible inside the undemocratic European Union.

By Voting Leave on 23 June, our County, our Country and our future will be far brighter than if we remain in the European Union.

If you have not yet seen 'Brexit: The Movie' – do search for it on YouTube, Facebook or anywhere on the internet. It will inform, shock and worry you in equal measure. We have seen what 40 years has taken from us as a member of the EU, do we really want another 40 years of the same?

For the sake of freedom please Vote Leave on the 23rd June and make it Independence Day for Britain.

Yours sincerely

- 1 Rt Hon John Hayes MP, South Holland & The Deepings (Conservative)
- 2 Sir Edward Leigh MP, Gainsborough (Conservative)
- 3 Andrew Lewer MEP, East Midlands (Conservative)
